Dear Sir:

Prior to examination on the merits, please amend the above-identified U.S.
patent application as follows:

In the Claims:

Please add the following new claims:

124. (new) A color imaging sensor comprising:

a substrate having a first defined region for sensing a first color wavelength component;

a second defined region for sensing a second color wavelength component; and

a third defined region for sensing a third color wavelength component, wherein the lower
boundaries of each of said first, second and third defined regions are located at respective
different depths from a surface of said substrate.
